### **Ansa Sanità Veneto: un nuovo reparto oncoematologico pediatrico Day Hospital inaugurato all'ospedale di Bassano del Grappa**

(ANSA) - VICENZA, 28 GIU - È stato inaugurato stamani il nuovo Day Hospital oncoematologico pediatrico dell'ospedale San Bassiano di Bassano del Grappa (Vicenza), alla presenza dei vertici dell'Ulss 7 Pedemontana e del presidente del Veneto, Luca Zaia. Presenti anche Renzo Rosso e Arianna Alessi, presidente e vicepresidente di OTB Foundation, che ha finanziato l'intero progetto del valore di oltre 170mila euro.

Si tratta di un "progetto importante, destinato ai piccoli pazienti e pensato per accogliere nel migliore modo possibile anche i familiari che vivono un momento particolarmente complesso", ha spiegato il governatore. Gli spazi, seppur in un ospedale, sono improntati all'accoglienza, alla creatività e al benessere di tutti coloro che devono frequentarli.

Risale al 2014 la realizzazione della Rete Oncologica del Veneto, "per assicurare a tutti i cittadini, anche quelli che vivono in centri periferici, di poter contare su un sistema sanitario che si prendesse cura di loro, estendendo l'applicazione di protocolli specifici, come quelli utilizzati negli ospedali universitari", ha quindi aggiunto Zaia. E questo nuovo reparto di Oncoematologia pediatrica va proprio in questa direzione: accanto ai grandi centri di riferimento di Padova e Verona (ospedali hub) si affianca una rete territoriale di prossimità (gli ospedali spoke), per consentire ai piccoli pazienti di essere più vicini a casa nel momento delle cure. Su 300 bambini ricoverati, i pazienti con queste patologie sono circa 25-30.

Con il nuovo reparto, si conferma il forte connubio tra pubblico e privato. La fondazione, infatti, "ha sposato il progetto proposto dal primario di pediatria dell'ospedale San Bassiano, Davide Meneghesso - ha proseguito Zaia -, rafforzando il reparto di pediatria e dando la possibilità ai genitori di poter curare e stare vicini ai loro figli nei momenti difficili che le malattie oncologiche impongono di affrontare". (ANSA).

**ADN Kronos - SANITA': ZAIA INAUGURA NUOVO DAY HOSPITAL PEDIATRICO DI BASSANO FINANZIATO DA DIESEL =**

Vicenza, 28 giu. - (Adnkronos) - Aperto oggi il nuovo day hospital oncoematologico pediatrico dell'ospedale San Bassiano a Bassano del Grappa (Vicenza) grazie anche al contributo di 170mila euro della Otb Foundation di Renzo Rosso e Arianna Alessi (jeans Diesel) che ha finanziato l'intero progetto dell'ULSS 7 Pedemontana. "Un progetto importante destinato ai piccoli pazienti che così saranno vicini al luogo di cure ma pensato per accogliere nel miglior modo possibile anche i familiari che vivono un momento particolarmente complesso. Questi spazi, seppure in un ospedale, sono improntati all'accoglienza e al benessere di tutti coloro che devono frequentarli" ha detto il presidente della Regione Veneto Luca Zaia, ringraziando per l'importante sostegno economico Rosso e Alessi che hanno raccolto la proposta del primario di pediatria, Davide Meneghesso. Il nuovo day hospital completa la Rete Oncologica del Veneto (Rov), implementata nel 2014, che connette i grandi centri di riferimento di Padova e Verona, gli ospedali hub, con gli ospedali spoke di prossimità, per garantire anche ai cittadini che vivono in centri periferici l'applicazione dei protocolli già utilizzati negli ospedali universitari. Su circa 300 bambini ricoverati, i pazienti con patologie oncoematologiche sono circa 25-30.
